

# The Cockermouth Floods

November 2009

A book of this tragic event has been compiled to provide a permanent pictorial record of the devastation caused, the evacuation and rescue of residents by the emergency services and the subsequent cleanup and recovery process in the first two weeks after the flooding, which demonstrated the fantastic community spirit that exists among the townspeople.

The majority of photographs in the book were provided by the Cockermouth Mountain Rescue Team who were first on the scene and there throughout the emergency. Other residents provided the remaining photographs.

It is hoped that the book will be available for the week before Christmas and advance orders are invited.

**£5** per copy. **£1** from each sale will go to **Cockermouth Mountain Rescue Team.**

**£1** from each sale will go to the **Cumbria Flood Relief Fund.**

To order direct from the publisher print out page 2 of this document and send it with your cheque to the address shown. The book will be posted to you (post free) as soon as it is available.
